PROJECTS

isaacyakl.com — Personal Website
- Features a portfolio, web-based resume, and blog
- Statically generates work entries using remark.js and gray-matter
- Experimented with relative CSS units in lieu of breakpoints

Skills used: NextJS, TypeScript, React, YAML, Markdown

bRando.js — Website Background Randomizer Library
- Automatically changes CSS backgrounds on any DOM element
- Supports sequential or random mode and all CSS background props
- Full code coverage and API documentation
- Published on NPM; downloaded hundreds of times

Skills used: TypeScript, Jest, Webpack, Babel

Remote Jackbox Player — Single-screen Jackbox Interface
- Mobile-first web app to find and play Jackbox games remotely for free
- Uses Twitch API to find channels streaming Jackbox games
- Simultaneously watch a stream and use Jackbox.tv on one screen

Skills used: JavaScript, Babel, Tailwind CSS, Twitch API, JSON

EXPERIENCE

Web Developer & E-commerce Manager   08/2020 - 02/2023

New Breed Paintball and Airsoft — Remote
- Automated structured data generation with JS; improved Google ranking
- Coded industry-leading, trade-in web app; mitigated need for follow-ups
- Built Shopify theme with product tagging and 3D model support
- Performed SEO tasks; increased clicks 400% and impressions 600%

Skills used: JavaScript, Shopify Liquid, JSON, PHP, Git, Adobe Apps

Web Developer   03/2014 - 08/2016

YourPbFriend — Fremont, CA
- Wrote the #1 most-used paintball trade-in web app of 2015-2016
- Coded product tagging system; increased customer satisfaction
- Embedded YouTube content dynamically; increased value for customers
- Leveraged Shopify platform; increased revenue 10x in 2 years

Skills used: jQuery, Shopify Liquid, Bootstrap, PHP, Adobe Apps
